Air Freight

Last update: March 2022

ITC Air Freight Service

From budget solutions to express and charter services, we will handle your small or large and particularly heavy shipments, clear them through customs and track your freight worldwide.

- » Personal assistance and advice
- » One contact for all your air freight needs
- » Access to the world's largest airline pool
- » IFLN worldwide network agent and IATA member, commissioned by the German Federal Aviation

Service

- » Air freight - direct shipments, consolidated shipments, express shipments, part-/full-charter
- » OBC (On Board Courier) services with approx. 40 valid Visas worldwide
- » Combined air & sea freight shipments
- » Network infrastructure and project management for special shipments
- » Support for globally operating key accounts
- » Customs clearance
- » Transport, storage and handling tasks
- » Control of service quality by our shipment tracking system

Unique selling point:

Flexibility with no political hurdle allowing us to focus and fully understand customers' business and needs.

In cooperation with the leading cargo airlines and shipping companies, we offer highly flexible services, integrated into the global network of our worldwide partners. The key to success lies in our experience, best partnership collaborations and qualified consulting and execution personnel. We help you in the planning and are happy to support you with all the required services.

*International
Freight
Logistics
Network*

285 Specialists guarantee a reliable Worldwide Network

- » Operational handling by an authorized IFLN agent including warehousing and airfreight-related services around the world
- » International trucking facilities
- » Europe wide transport, express & courier network
- » Worldwide Door to Door transportation
- » Group expertise for the offering of customized, competitive and reliable creative solutions
- » IT capability, global tracking systems and reporting with KPI's

Customers of IFLN and its members receive the dual benefits of local know-how and hands-on operatives, together with the overall consistency of management throughout the supply chain, regardless of the country or location that might encompass.

Network

As an official IATA agent ITC Logistic offers you the complete diversity of airfreight traffic.

Transparent processes, qualified staff and our global network ensure perfect service and professional consultation. On account of our membership in IATA and IFLN, we have access to a network of 230 airlines in 118 countries as well as to 225 logistics companies in 90 countries.

ITC Air Freight Charter Service

Procure yourself competitive advantages with us.

We deliver complex, integrated and tailor made airfreight charter and logistics concepts.

Consulting and the right planning are the Alpha and Omega of smooth process

- » We check whether the freight can be loaded, inspect special properties, advise you on packaging and coordinate special loading equipment (e.g. cranes)
- » We plan and organize your entire transport chain; upon request, we will store and consolidate your goods - in the bonded warehouse if necessary
- » Our team obtains special permits and processes your charter shipment from A-Z. If you wish, until it arrives at the recipient's in the destination country
- » Atlas customs clearance

We work e.g. for the following industries:

- Automotive, Airmotive
- Dangerous Goods
- Heavy industry and plant engineering
- Oil, gas and mining industries
- Major projects
- Valuable goods
- Perishable goods
- Pharmaceutical products

Customs Clearance

Our Services include:

- » Professional advice
- » Electronic export declaration (AES)
- » Digital customs clearance via ATLAS (DE)
- » Neutralization of freight documents (change in goods owners)
- » Applications for exemption/refund
- » Customs clearance (incl. T1 preparation and fiscal representation)
- » ABD creation (export document, former export declaration)
- » Translation service for customs-relevant papers
- » EU customs clearance/fiscal representation
- » Atlas customs clearance
